

Cookies Policy

1. Cookies

Cookies are small text files that are sent by a website to an internet browser during the website visitors' browsing process and then retrieved to recognize them the next time they visit it.

Their main function is to memorize information, such as preferred language, for a period of time, to make it easier for visitors to browse the sites of their choice.

The cookies never contain any personal information that could allow anyone to contact (e.g. by email) the website visitor.

2. Types of Cookies

The Motors Insures' Bureau - Greece uses cookies of the following types to support core functioning of the website and to promote better browsing, personalization of information and preferences of each internet browser. It is noted that no third party has access to these cookies.

Required cookies

The necessary cookies, or otherwise essential, are absolutely necessary for the proper functioning of our website. They allow you to browse and use their features, such as access to safe areas, etc. These cookies do not recognize your personal identity. Without these cookies, we cannot offer an effective operation of our website.

Functionality Cookies

These cookies allow the website to remember the user's choices, such as the language or region and the settings he has applied, to provide improved and personalized features. The information collected by these cookies is anonymous and may not track browsing activity on other websites.

3. Control and acceptance of cookies

The visitor, when browsing on the Motor Insurers' Bureau's website, is informed about the cookies' existence with relevant reference made on our website and he understands and agrees that the use of cookies is necessary for the website's proper functioning. Otherwise, it must stop browsing the web or disable the use of cookies in the browser settings.

4. List of cookies used

Name	Description	Duration
